

Introducing Clover Online Ordering

Fast. Easy. Cost-Effective.

Get set up fast with Clover Online Ordering, so you can receive and process orders from wherever customers discover you: searches, apps, or your website. We offer three online ordering services – Clover Ordering Websites, the Clover app, and The Ordering.app, now part of Google®. More services are coming soon.

New revenue streams

Open your business to online orders to generate new revenue, increase profits, and attract new customers.

More customers

Sign up for all of our online ordering services to maximize your order volume. More ordering services = more customers = more online orders.

Efficient and cost-effective

We process your online orders and payments through the Clover system you know and trust – so you can focus on your business and your customers.

Online ordering, the way it should be

- We'll build your ordering web page and customize it for your business
- Set up and maintain your ordering platform in the Clover Dashboard, and we'll automatically update your online ordering web page
- From acceptance to fulfillment to pick up, manage the entire order lifecycle right on your device
- No set-up fees. No or low processing fees
